Trading in live or freshly-killed  
hens and pullets anywhere in the  
United States is forbidden (in an  
order announced this week by the  
United States food administration,  
February the 28th is the date fixed  
when fresh stock must be disposed  
of and it adds that additional  
stocks may not be purchased. If  
restricting the killing of chickens  
which should be heavy layers, the  
food administration hopes to in-  
crease the production of eggs and  
allow them to be put in storage at  
a reasonable price.

An exchange save it is hard to  
tell what the women folks will do.  
Thirty years ago they wore bustles  
because they needed them, and  
five years ago they wore umbrellas  
covers for skirts, to prove they  
didn't need bustles. Thirty years  
ago they wore skirts that touched  
the ground, to prove that they had  
no such thing as limbs; and today  
they wear skirts that stop at the  
knee, to prove that they are there  
with bells on when it comes to legs.  
Watch 'em this year--we mean the  
women.

## Citizens Object To Charges For Meter Installations and Repairs

The regular fortnightly meeting  
of the Blairmore town council was  
held last night. Mayor Beebe and  
Councillors Dutil, Rose and La-  
gace being present.

The minutes of previous meeting  
were approved as read and a num-  
ber of communications and bills re-  
ceived.

The following accounts were  
passed for payment, subject to ap-  
proval by committee: Blairmore  
School District, \$28,200, John  
Turner \$300, Alberta Government  
Telephones \$10.35, Blairmore Hard-  
ware Co. \$11.10, Western Canada  
Wholesale Co. for gasoline \$5.00,  
West Canadian Collieries Co., Janu-  
ary light account at 6 cents per  
kilowat \$767.40, sundry small ac-  
counts \$24.64.

Account of Western Municipal  
News for 1918 membership fee  
\$10.00, was also ordered paid.

F. McLaren wrote the council,  
complaining against the price charged  
for repairing wires in his house  
on State Street. A similar com-  
plaint was received from M. Rose  
(councillor), both of whom claimed  
that the charges were exorbitant.  
On being asked as to what author-  
ity the electrician had to enter pri-  
vate residences and interfere with  
wiring beyond the meter, the coun-  
cillors were informed that the elec-  
trical contractor had no such au-  
thority from the town, that the  
contract between the town and  
John Turner called for the repair-  
ing of the service line to the meters  
and installation of meters, the lat-  
ter work to be charged to the in-

dividual householders.

Councillor Rose was assessed a  
business tax on his premises which  
were for the first half of last year  
occupied by Dr. McDonald as a  
pharmacy, but for the balance of  
the year by Mr. Rose as a soft-  
drinks and candy and cigar depot.  
The business-tax assessment and  
enforcement came into effect after  
June of last year, and the above  
premises were occupied by Mr.  
Rose at the time of assessment.  
As the business-tax by law makes  
no provision for part terms, it ap-  
pears that Councillor Rose cannot  
get away from paying the full  
amount of the tax. Councillor  
Rose, who was one of the greatest  
agitators last year for the business-  
tax, had the good(?) principle on  
this occasion to present the council  
with a cheque for half the amount  
of his assessment, which he sup-  
poses, perhaps, acts as an induc-  
ement to others to bear their bur-  
dena nobly.

Mark Sartoris objected to paying busi-  
ness tax on the premises on lots 4 and 5  
in block 12, claiming that while he was  
looking after the property, or occupying  
it, he could not be expected to pay a  
rental tax since he is not paying rent.

The Council were of opinion that both  
the above parties, in common with all  
others affected by the business tax, had  
had ample time and opportunity to ap-  
pear before the court of revision last  
year, and that there was now no alterna-  
tive than to pay their assessments.

The appeals made against the methods  
adopted by the electrician were handed  
over to the Light Committee for in-  
vestigation.

On motion by J. H. Lagace, by-Law  
No. 64, as appears elsewhere in this is-  
sue, received its third and last reading  
and finally passed.

## School Boards To Appeal For Wider Assessment Privileges

A joint meeting of the boards of  
the Pass school districts was held  
at Blairmore on Tuesday afternoon  
for the purpose of considering ways  
and means of more equal distribu-  
tion of school assessment.

The meeting was attended by  
Mrs. Cawthorne and W. J. Cole, of  
Bellevue; Frank J. Smith, of Hill-  
crest; Alex. Cameron, of Coleman;  
Rev. W. T. Young, of Frank; and  
W. A. Beebe, F. M. Pinkney, W. J.  
Bartlett and Secretary Wright, of  
Blairmore. The chair was occu-  
pied by Mr. Cameron.

It was decided that a deputation  
representative of the various dis-  
tricts of the Pass be sent to Ed-  
monton on or about February the  
26th, for the purpose of interview-

ing the minister of education and  
the government with a view to the  
bringing about of more and better  
educational facilities, and the ne-  
cessity of a system of educational  
tax, somewhat similar to the poll  
tax, by which a levy may be im-  
posed upon all wage-earners  
who are not already taxpayers un-  
der the school ordinance. The Pass  
has a rather unique problem to face  
in the matter of financing. Fully  
sixty per cent. of the school popu-  
lation are of foreign extraction,  
very few of whom are property  
owners, and consequently not affect-  
ed by the present system of taxa-  
tion; yet they were reaping the full  
benefit of education at the expense  
of the few individuals who owned  
property.

## Joseph Beranek Killed At Frank

An accident occurred in the mine  
of the Franco-Canadian Collieries  
at Frank on Saturday afternoon  
last, in which Joseph Beranek, a  
Bohemian miner, lost his life.

Shortly after the 4 o'clock shift  
came out of the mine it was dis-  
covered that Beranek had failed to  
check out, and a search was insti-  
tuted, with the result that after  
several hours search the body was  
found near a chute, through which  
he had fallen, being covered by  
fully two feet of coal and rock. The  
body was brought to the surface at  
10.30, and on examination by the  
doctors it was decided that death  
resulted from suffocation.

Beranek had been a resident of  
Frank for a number of years, and is  
survived by a wife, two daughters  
and one son.

Funeral took place on Monday  
afternoon from the Methodist  
church, where service was con-  
ducted by the Rev. W. T. Young. In-  
terment took place at the Blairmore

## Lineman Falls; Breaks Both Legs

An accident occurred at Blair-  
more on Saturday afternoon, which  
resulted in W. J. Heller, an elec-  
trician employed by John Turner,

sustaining two broken legs and a  
sprained wrist. Heller was engaged  
repairing wire-joints, and was up a  
pole disconnecting wires from the  
insulators. In some manner he lost  
hold of the wire, which was ap-  
parently the only support for the  
pole and the pole fell to the ground.  
Help soon arrived and the man was  
conveyed to the hospital, where it  
was found that he was suffering  
from a compound fracture of one  
leg between the ankle and the  
knee, the other leg broken above  
the knee. The compound fracture  
may result in the loss of that limb.  
It will be some months before Hel-  
ler will be able to come out of hos-  
pital.

Heller was about forty-three  
years of age.

## After Closing our Stock- Taking Sale

**Time Was Up**

The attorneys for the prosecution  
and defense had been allowed  
fifteen minutes each to argue the  
case. The attorney for the defense had  
begun his argument with an allusion  
to the old swimming hole of his boy  
hood days. He told in flowery oratory  
of the balmy air, the singing  
birds, the joy of youth, the delights  
of the cold water. And in the  
midst of it he was interrupted by the  
drawing voice of the judge. "Come  
out, Chaney," he said, "and put on  
your clothes. Your fifteen minutes  
are up."—Smart Set.

**Worse Than Blasphemy**  
"Forward with God to fresh  
dreds," is Emperor William's New  
Year's message to the Teuton troops.  
This association of the Almighty  
with Hun-breasted, past and future,  
is worse than blasphemy.—Calgary  
Albertian.

"I understand some people are  
predicting the use of wooden shoes."  
"Good idea," shouted the energetic  
citizen. "I'll stop pussyfooting."  
—Washington Star.

W. H. U. 1194

**Poser for the Slacker**

World Must Fight the Barbarians  
for the Sake of Peace.

An applicant for exemption from  
military service, according to an  
eccentric contemporary, based his  
claim on the belief that only bar-  
barians and Hunns should fight. The  
bellows is shared, no doubt, by a  
many others, and it would be a  
pleasant relief for peacefully disposed  
people if all fighting could be re-  
stricted to the Hunns and the bar-  
barians. But if the Hunns and the  
barbarians refuse to restrict the  
fighting to themselves, what then  
is the rest of the world to become  
barbarian rather than fight the bar-  
barians? Many of those who are  
the great mass of them, who are  
fighting the Hunns and the barbarian  
today have no love for fighting for  
their own sake, but they love the  
cause for which they are fighting,  
and they have no doubt of the  
necessity for fighting.—Woodstock  
Sentinel-Review.

"I hope you never deceive your  
wife," said the middle-aged man, with  
a look of pious concern.  
"I'd like to know what business it  
is of yours to hope that I never de-  
ceive my wife," snapped the bristling  
citizen. "Do you think I'm going to  
let her find out how often I am, just  
please you?"—Birmingham Age-  
Herald.

Worms in children, if not attend-  
ed to, cause convulsions, and often  
death. Mother Graves' Worm Ex-  
terminator will protect the children  
from these distressing afflictions.

**A New Gas at the Front**

Australian Soldier Thought He Had  
Discovered a New Device of the  
Germans

The average Australian had never  
seen before he came to this  
part of the globe, and had no idea  
what it felt or what it was like. I  
am going to relate an incident which  
happened about the time the Germans  
were entering us with new gas.  
You may not believe the following,  
but it's a fact:

It was dead of night; every-  
thing was still, wonderfully still, ex-  
cepting for the report of some gun  
in the distance. The moon peeped  
from a gap in the cloudy sky. It  
was bitterly cold, and I was rub-  
bing my numb hands, sniffling  
through my frozen nose.

"Get gas," shouted Private New-  
hand. "Fritz is putting over some  
new gas—look at it!"

We all slipped on our helmets, and  
after the excitement was over we  
discovered it wasn't gas at all—it had  
just been a bullet. The Germans were  
believing it or not, it actually hap-  
pened.—Correspondent from the  
Front.

**These Pills Cure Rheumatism.**

To the many who suffer from rheu-  
matism, it is a relief to know that  
Pills is recommended. They have  
pronounced action upon the liver and  
kidneys and by regulating the action  
of these organs act as an alternative  
in preventing the admixture of uric  
acid and blood that causes the pain-  
ful disorder. They must be taken  
according to directions and used  
steadily, and they will speedily give  
evidence of their beneficial effects.

**Making Potash**

Success Attained Effort to Secure  
Product from Ontario Feldspar

Another important stage has been  
passed in the attempt to solve the  
problem of extracting, on a commer-  
cially practical scale, from Ontario  
feldspar, its contents of potash, in  
the supply of which Germany has  
had a monopoly for half a century,  
and which monopoly some of her  
scientists still boast will enable her  
to control the world trade after the  
war.

This stage is the successful opera-  
tion in Toronto of an experimental  
plant, which, though a demonstration  
plant, is turning out potash at the  
rate of one ton a day.

The proprietors and promoters are  
the National Potash Corporation.  
Limited, the experimental plant is on  
Spadina avenue, the commercial  
plant is under construction at Grav-  
estock, and will be 40 times the  
size of the demonstration plant.

The United States government has  
placed orders with the company for  
two tons of potash a day for the  
next two years. This is to be used  
for making permanganate of potash,  
a powerful disinfectant for the army.  
The British government has also  
made application for a supply.

**CULCURA HEALS ECZEMA AND BABY**

Spread Covering Body. Awful  
Disfigurement. Itched and  
Burned. Had to Scratch.

"My baby was troubled with eczema  
which began on her face and spread  
over her body. It over her body  
a rash and was very sore and  
inflamed, causing a  
disfigurement. The  
rash itched and burned  
making her scratch ter-  
ribly and she was crying."  
Then I used Culcra  
and Outint. Baby  
was healed within a few  
days. I am glad to say  
Henry Richard, Murray Harbor, P. E.  
Island, April 2, 1917.  
You may rely on Culcra to care for  
your skin, scalp, hair and hands.  
For Free Sample Book by Mail ad-  
dress: Culcra Co., 1000 Broadway,  
Boston, U. S. A. Sold everywhere.

**Rheumatism Yields**

Only rheumatic sufferers  
know the agony of its dar-  
ling pains, aching joints or  
twisting cords. But some  
few have not known that

**SCOTT'S**

has been correcting this trouble  
when other treatments have  
utterly failed.

Scott's is essentially blood-food  
in such rich, concentrated form  
that its oil gets into the blood to  
alleviate this stubborn  
malady. Get a bottle of  
Scott's Emulsion and  
advise an ailing friend.

Scott & Bower, Toronto, Ont. 12-2

**Rode a Wild Moose**

Ontario Hunter Performed a Thrill-  
ing Feat on Swimming  
Animal

The most remarkable feat perform-  
ed by a man with a wild animal in  
the open air is not an uncommon  
one, the unique act which hap-  
pened recently in Ontario, when a hunter rode  
a wild moose.

Rainy Lake, Ontario, Canada, is a  
region abounding with moose and  
other game and has only been re-  
cently made accessible to the sports-  
man by the completion of the Cana-  
dian Northern's new transcontinental  
railway. It is not an uncommon  
sight to see the animals swimming  
across the lake.

The moose in question was  
well out in the middle of the lake  
two sportsmen overtook it in their  
canoes as it paddled from a point  
and cutting it off. Running the  
nose alongside the swimming animal,  
the hunter lay on his back, and  
the side of the boat, maintaining his  
own balance and keeping the canoe  
steady by placing his feet on the  
moose's back. The whole required  
cool nerve and a long knowledge of  
boating for the canoe is the most un-  
stable craft on water. The hunter  
in his judgment had arrived he  
threw himself clear and down  
onto the animal's back in a true rid-  
ing position. Holding on with one  
hand to one of the submerged points  
of the animal's back he kept his  
position, while waving his hat to  
the sportsman who was on the  
shoreward with its unaccustomed  
burden.

But their danger was, once the  
moose got ashore he might turn on  
his rider, so when "leaving it"—the  
animal slipped off and climbed back  
to his canoe, allowing the moose to  
make good its escape, none the worse  
for its experience.—Scientific Ameri-  
can.

"De trouble about fault-finding,"  
said Uncle Eben, "is a bad habit,  
liable to regard it as an accomplish-  
ment instead of a habit."—Washing-  
ton Star.

**LIFT YOUR CORNS**

OFF WITH FINGERS

How to loosen a tender corn  
or callus so it lifts out  
without pain

Let folks stop on your feet here-  
after. Corns will cost you smaller  
you like, for corns will never  
send electric sparks of pain through  
you, according to this Cincinnati

He says that a few drops of a  
drug called Freezone, applied directly  
to the corn, will cause it to swell  
and relieve soreness, and soon the  
entire corn, root and all, lifts right  
out.

This drug dries at once and simply  
shrivels up the corn or callus with-  
out causing irritation of the surround-  
ing tissue.

A small bottle of Freezone obtain-  
ed at any drug store will cost very little  
but will positively remove every  
hard or soft corn of callus from one's  
feet.

If your druggist hasn't stocked  
this new drug yet, tell him to get  
a small bottle of Freezone for you from  
his wholesale drug house.

**Has Got It Right**

German Pacifist Says no Peace Till  
Prussia Is Crushed

Prof. von Wrangel, a well known  
German pacifist, writes in the Freie  
Zeitung that he had always been in  
favor of immediate peace without  
amercement, but since as the result  
of a recent talk with Field Marshal  
Hindenburg, he has completely  
changed his opinion.

"The professor," says he, "sees that  
Wilson's 'Fourteen Points' is a  
peace that will cost very little. Ger-  
many are right that there cannot be  
a durable peace in Europe until Ger-  
many is crushed."

The verdict should be a shock to  
the German government and mili-  
tary authorities, with whom  
von Wrangel has been on excellent  
terms since the beginning of the war.

"What's the matter," little mil-  
lions," inquired the typhoid germ.  
"I'm not really discom-  
forted by the anthrax bacillus. 'Here I  
am employed in the military service'  
of the typhoid germ. I'm not  
discomforted by the anthrax bacillus."  
—Washington Star.

**Brave Girl of Franco**

Sent to a German Prison for Aiding  
British Soldiers

A brave French girl, named Mlle.  
Germaine Chaudrel, who lived with  
her family in a little village near  
Guise, in the Alsace department, had  
just returned to France after two  
years' captivity in German prisons.

It was on October 20, 1914, that the  
region of Guise was invaded. Mlle.  
Chaudrel and her family, composed  
of the girl's mother, 15 years old,  
and his son, 16 years old, had re-  
mained on their little farm. On that  
morning, while in his field, Mlle.  
Chaudrel suddenly saw a British sol-  
dier come out from behind a hedge  
and approach him, followed by a  
moment afterwards by ten others. These  
poor fellows had lost themselves,  
could not return to the French, or  
British lines and had been hiding for  
days in the country.

Mlle. Chaudrel decided to take these  
men to her place. They lived there  
for two months, the girl Germaine  
and her brother keeping watch night  
and day. On February 23, 1915, a  
tragedy took place. The Germans  
heard through a spy of the presence  
of these eleven British soldiers in the  
poor farmer's house. In the after-  
noon they surrounded the farm and  
house. Germaine rushed up to the  
attic, where her proteges were. She  
was caught on the stairs by a Ger-  
man soldier with a revolver.

"Where are the English?" he asked.

"Look for them!" replied the girl.  
The Germans knew the danger  
their little protectress was running.  
They opened the door and gave  
themselves up.

The house was burned, and a few  
days after the attack, Mlle. Germaine  
and her brother were sent to a Ger-  
man prison. Mlle. Germaine was  
detained for four years in prison, her  
daughters, who were then ten and  
three years.

At the trial the girl Germaine  
told the story of her father about the  
British soldiers.

A German answered, "I regret to  
hear of the death of your father, but  
I am sorry to hear of it, days  
ago. They all died bravely."

**LISTLESS, PEEVISH GIRLS**

When a girl in her teens becomes  
peevish, listless, dull, and nothing  
seems to interest her, and  
dainties do not tempt her appetite,  
she may be needing more  
good blood than her system is  
provided with. Before long her pal-  
lidity, frequent headaches, and  
breathlessness and heart palpitation  
will confirm that she is anemic.

Wm. W. Wemyss, M.D., says the result  
of the own girl's experience can  
promptly detect the early signs of anemia,  
and at once gives her daughter a  
course of Dr. Williams' Pink Pills  
which restores the blood supply, and  
banish anemia before it has obtain-  
ed a foothold upon the system.

Out of their own experience thou-  
sands of mothers know that anemia  
in the young is a danger. They know  
the difference that good blood  
makes in the development of  
the body. They know that every  
gap for breath that follows  
the slightest exertion by the anemic  
girl is a sign of weakness. They  
know that the blood is in their  
back and limbs are reproaches if  
they have not taken the best steps to give  
the blood a new lease of life. They  
only sure way to do so is through  
the use of Dr. Williams' Pink Pills.  
The blood is in the blood.

to the system by every dose of these  
pills. From this new rich blood  
the good blood is made. The  
petite, new energy, high spirits and  
perfect womanly development. Give  
your daughter Dr. Williams' Pink  
Pills, and take them yourself and  
note how promptly their influence is  
felt in better health.

You can get these pills through  
any dealer in medicine or by mail  
post-paid at ten cents a box or  
three boxes for \$2.50 from Dr. Williams'  
Medicine Co., Brockville, Ont.

**Wemyss is an Aristocrat**

But Is Also Said to Be a Fighter  
and Knows His Men

Speaking of the new first lord  
of the Admiralty, Lord Roslyn, Wemyss  
is a name that is well known. It  
may be well to make it easy for  
him at the outset by explaining that  
his name is pronounced "Wemyss."  
Wemyss became a much less  
formidable when that fact is  
known. He has a distinct reputation  
as a fighter of the "first" order  
throughout the British navy. He  
was in 1864.

He took a foremost part in the  
Jutland battle and acquitted himself  
admirably. He comes of one of the  
old conservative families of England,  
being a son of the late J. H. Erskine  
Wemyss, of Wemyss Castle, Fife. He  
entered the navy in 1877, was made  
a lieutenant in 1877, a commander in  
1880 and captain in 1901. He was  
commander of the Royal Naval Barracks  
in 1911 and 1912, rear admiral  
of the second battle squadron in  
1913 and 1914, and was an active  
enquiry to the king.

Admiral Wemyss represents  
the aristocratic element in the  
second sea lord he was responsible  
chiefly for the appointment of the  
present sea lord, and he was un-  
doubtedly taken as first assistant  
to Admiral Jellicoe because of his  
long service and his reputation as  
a fighter.

**The War on Sea**

It will be a "long war," Sir  
Erskine says. That fact should not  
be taken as a reason for giving up  
the long war depends on the navy.  
Especially on the British navy. With  
the submarine terror and the navy  
weakened, it is not even true that  
port American troops and supplies  
to Europe. Theorists who, in face  
of the facts, make the navy the  
macy of the fleets on the loss of a  
single ship, are not only wrong, but  
they are changing the present policy  
of the navy. One by one, by an-  
nouncing them to fight a doubtful battle  
against mines, would be sinking the  
whole war. If the navy were fol-  
lowed.—New York Times.

**COMMUNAL COOKING IS URGED**

New Plan Would Result in Saving of  
Coal, Food and Labor

How long shall we have to wait  
before communal cooking becomes  
common in every class of society?  
The need of some system of catering  
on these lines constitutes the felt  
want of the moment.

In residential neighborhoods in  
every town in every village, through-  
out the length and breadth of the  
land, there is an opening for supply  
kitchens, or really practical  
business lines, where well cooked  
food of the plain and wholesome var-  
ieties could be bought at reasonable  
prices—all ready to serve, or merely  
requiring to be heated up.

Not only would such a system mat-  
terially help to solve the problem of  
feeding the poor, but it would insure an  
enormous saving in coal, in labor, in time  
and money—to say nothing of the  
saving of the waste of food that is so  
flagrant a scandal in hundreds of  
homes all over the country. It would  
set free a vast number of women  
from the kitchen.—From the London  
Chronicle.

**How Modern Wars are Won**

Enemy Defeated Through People

General von Ludendorff, who is  
recognized as the brains of the Ger-  
man government and the most influ-  
ential director of its activities, has  
declared an important truth in his re-  
mark: the other day on the special  
radio broadcast, he said: "The issue  
of a campaign might be de-  
termined by the result of a single  
crucial battle. The result of the  
crucial battle is determined by the  
result of the campaign. The result  
of the campaign is determined by the  
result of the battle. The result of the  
battle is determined by the result of  
the campaign. The result of the cam-  
paign is determined by the result of  
the battle. The result of the battle is  
determined by the result of the cam-  
paign. The result of the campaign is  
determined by the result of the battle.  
The result of the battle is determined  
by the result of the campaign. The  
result of the campaign is determined  
by the result of the battle. The result  
of the battle is determined by the  
result of the campaign. The result of  
the campaign is determined by the

### January Report of Blairmore School

The following is report of the Blairmore public school for the month of January, 1918:

Primary Room, Miss A. F. Roode, teacher—Enrollment for month 48, aggregate days' attendance 746.6, average attendance 35.54, percentage of attendance 74.04. Perfect in attendance and punctuality: Nina Rose, Peter Patterson, Lester Sinclair, Irene Sartoris, Jimmy Joyce, George Hinds.

Grades I. and II., Miss E. M. Foster, teacher—Enrollment 51, average attendance 38.85, percentage of attendance 80.88, latest 7. Pupils perfect in attendance and punctuality: Violet Sinclair, Crystalline Schmidt, Richard Randall, Julia Dutil, Millie Rose, Mervyn Evans, George Christophers, Charlie Joyce, Leonard McDonald, Billie Robbins.

Grades III., Division D.—1st Violet Sinclair, 2nd Steve Krikowsky, 3rd Bruno Fabis.

Grades II., Division C.—1st Joe Krikowsky, 2nd David Kemp, 3rd Millie Rose.

Grades I., Division B.—1st Julia Amato, 2nd Isabelle Ren, 3rd Joe Nemrava.

Grades I., Division A.—1st Annie Ulin, 2nd Arnold Lins, 3rd Billie Robins.

Grades III., Junior and Senior and Junior IV., Miss S. McCollin, teacher—Enrollment 40, average attendance 37.14, percentage of attendance 92.82. Perfect in attendance: Andrew Stewart, Mattias Schmidt, Gela Handley, Willie Nemrava, Arthur Decoux, Gertrude Dutil, Ines Brunetto, Alice Hays, Edward Ennis, Margaret Stewart, Beatrice Turner, Ethel Williams, James Garrett, J. McAndrew, Winnifred Hays, Desire Jones, Peter Corrigan, Freda Brown, John Lloyd, Mary Barter, Maurice Maniquet, Gertrude Link, Mary Hany.

Grades III., Junior. Grade III., Senior. 1—John Lloyd. 1—Margaret Stewart. 2—Evelyn Steiner. 2—James Garrett. 3—Gertrude Link. 3—Ernest Somville. 4—Wynon Loozon. 4—Lillie Southill.

Grade IV. 1—Ince Ernest. 2—Willie Nemrava. 3—James Hunter. 4—Mattias Schmidt.

Grades IV. and V., Miss V. J. Keith, teacher—Enrollment 42, number of school days 21, average attendance 58.50,

percentage of attendance 57.85. Perfect in attendance and punctuality—Evelyn Hinds, Roland Pinkney, Louis Rose, Edith Bourdonck, Violet Warner, Joan Shearer, Janet Thibodeau, Robert Thompson, John Patterson, George Shearer, Jessie McVey, Phil Christophers, Frank McLeod, Alrick Tiberg, Harold Riley.

RANGE 12 CLAS. Grade V.—1st Robert Thompson, 2nd Gophy Kubik, 3rd Benvenuta Pozzi, 4th Roland Pinkney, 5th Charlie Garrett. Grade IV.—1st Velly Casewin, 2nd Alfred Vangoninoven, 3rd Willie Nagn, 4th Louis Pozzi, 5th Harry Corrigan.

Grades VI. and VII., Miss E. M. Fulton, teacher—Enrollment 39, aggregate days attendance 774.9, average attendance 58.85, percentage of attendance 84.48, latest 3. The following were neither late nor absent: George Bond, George Kaffory, Marguerite Pearson, Lucy Hinds, Elizabeth Patterson, Marion Ennis, Gunnar Lund, Archie McCollom, George Handley, Jean Knopf, Flora Warner, Gwen McDonald, Sydney Sargent, Irene Southill, Winnie Christophers, Lydia Brunetto, Mildred Pearson, Olga Mison.

ABSENCE RECORD FOR RANGE. Grade VI.—Alice Comfort, Elizabeth McLeod, Flora Warner, Olga Mison. Grade VII.—Gunnar Lund, Vernon Hunter, George Kaffory, Marion Ennis.

Grades VIII., IX., X. and XI.—Enrollment 27, average attendance 23.64, percentage of attendance 87.18, latest 3. Total enrollment 240. C. R. Pearson, principal.

### Cowley Happenings

Miss Rose Fortier has returned home from Calgary.

John Kemm, M.L.A., has returned from Edmonton until the reopening of the session.

Mr. Harvey Welsh has returned to his post as cashier in the Union Bank, after serving as relief in Pipcher Creek.

The masquerade dance held in the Tanner schoolhouse last Friday, in aid of the Red Cross, was a decided success.

The River Baseball Club announced a dance to be given in the Cowley hall on the 20th, the

proceeds to go to the Red Cross.

Messrs. Morrow, Alexander, Harrington and Fred Crayford motored to Pincher Creek to attend the hospital masquerade ball on Monday night and report having had a good time.

Sandy Thompson, of the P.P.C. L.I., writes from a base depot in France that he is well and had a fine spread on Christmas Day. He reports seeing 'Peggy' Thompson, Reginald Goad and Harry Jackson going through to the front, also seeing Leo Griffiths recently. Also that he had a fine visit with 'Bill' Tweedy in Edinburgh.

The windstorm of last Friday and Saturday seemed to have been the worst in fourteen years in the Maycroft district on the North Fork. Several hundred tons of hay on the Walroad and surrounding ranches were scattered, several log buildings demolished, not to mention miles of fencing flattened out where the posts were old. Mr. Lane's house was severely damaged by a flying log from McCone's barn, the log being thirty feet long and a foot in diameter. It is unusual that the winds in this district have sufficient weight to do such damage.

### FOR SALE

A Store in Blairmore, Alberta, on Victoria Street. Cement Block Building, size 90x25, on block 5, lot 7. For further particulars apply to LEON BADOT, Tod Creeks, Alberta.

### \$50 Reward

Will be paid for information on the conviction of the party or parties that destroyed the door of the Royal Bank building in Blairmore.

T. EDE.

### NOTICE

NOTICE IS HEREBY GIVEN that, in accordance with the provisions of the Irrigation Act, the McLAREN LUMBER COMPANY have filed the necessary memorial and plans required by Sections 13 and 15 of the said Act, with the Commissioner of Irrigation, at Calgary, Alta. The applicant company applies for the right to impound water in CROW'S' NEET RIVER at a point on the north-west quarter of Section 10, Township 8, Range 5, West of the 5th Meridian, for 'other' purposes, and for the right to construct the necessary works, as shown by the memorial and plans filed, to enable the water so impounded to be used for the said 'other' purposes in facilitating their lumbering operations.

DATED AT BLAIRMORE, Alberta, this 14th day of January, 1918. McLAREN LUMBER CO. Per HARRY BRUCE, Manager.

### NOTICE

To Thomas P. Cyr:

TAKE NOTICE that an action has been commenced against you by Jacob Alexander in the Supreme Court of Alberta, Judicial District of Lethbridge, to recover the sum of \$2,884.87, together with interest and costs of the said action, and in default of payment of the said sum, sale or foreclosure of certain lands mentioned in a certain mortgage made by you to Henry S. Pelhaier and assigned by him to the said Jacob Alexander, which lands are described as the North half of the South-west quarter of Section Ten (10) in Township Eight (8) Range Five (5) West of the 5th Meridian. AND TAKE FURTHER NOTICE that pursuant to an order of His Honour Judge J. A. Jackson, Local Judge of the Supreme Court, dated the 7th day of February, 1918, you are required to, on or before the 1st day of April, 1918, sign a Statement of Defence or Demand of Notice to this action, and in default of your so doing the Plaintiff may enter such judgment against you as according to the practice of the Court he is entitled to without further notice to you.

Approved: J. A. J. BALL & CAMERON, Solicitors for the Plaintiff.

### Bellevue Happenings

Joe Dino went to Calgary on business this week.

Mrs. S. T. Humble has been laid up for a few days with la grippe.

Some damage was done by the high wind here the early part of the week.

A number of the Bellevue boys went to Frank on Wednesday night to play hockey.

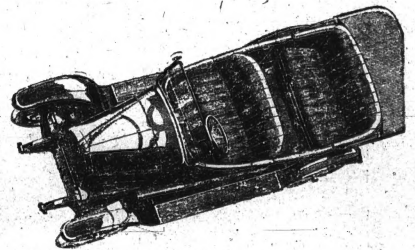

The remains of the late Samuel Parker were laid to rest at Hillcrest on Sunday afternoon last.

Miss Gladys Chappell gave a birthday party to a number of her young friends on Wednesday last.

The concert and dance given in the Workers' hall on Friday night under the auspices of the Ladies'

Auxiliary of St. Cyril's church was well attended, and the handsome sum of \$200 was raised.

The Bellevue Horticultural Club held their first meeting on Tuesday evening in the church hall. There was a large attendance. The meeting was called to order by Mr. D. Davidson as chairman, and after a few remarks the election of officers for the coming season took place. Mr. W. H. Clappell, Jr., was elected president and Mr. George McKean secretary. A managing committee of some fifteen gentlemen was chosen to look after the welfare of the club this season. They intend offering some valuable prizes for the different branches, some for the gardening end and some for poultry and eggs, so get busy and land the prize.

## Canadian Place Names

A Mosaic of History Written in Geographical Titles

Canada has always afforded a rich field for the study of place names. With such a variety of backgrounds, furnished by Indians and by settlers from many different countries, its geography is a mosaic of its history. The patient student finds much to reward him and to stimulate his interest in a pursuit of Sheep River, Kiamat, a village, and an arm of Douglas Channel in British Columbia, is Indian for "the people of the snow," while Kaslo means "where blackberries grow."

Another source for the student comes in the fifteenth annual report of the Geographic Board of Canada, containing suggestions for two years affecting several thousands of names in various parts of the country. This board is concerned with names and spelling, and in its decisions gives some description for the object, and usually the origin, of the name. It is in the latter that most interest will be found, for it mirrors much of the history of the country for a century or more. Here are shown little tendencies of the times, sometimes of a very worthy and national, sometimes extremely local.

Canada's prime minister—slow-moving and irascible, or is he as cold as an iceberg? This question arises when one finds a name to "glacier at the foot of Mount Sir Robert" in the coast district of British Columbia.

Two names dear to all allied people are perpetuated. "Edith Cavell" is given to a mountain in Jasper Park, Alberta, "after Nurse Cavell, judicially murdered by the Germans in October, 1915," and "Warfield" is the name of a river in British Columbia, after Reginald John Warfield, V.C., who brought down R. S. Zepplin single-handed, 7th June, 1915, and was killed ten days later, aged 23.

One turns to Haig with similar expectations of war memories, but Mount Haig in the Yukon territory is named after Capt. R. W. Haig, astronomer on the British boundary commission, Pacific coast, who died away back in 1858-62.

Two Ontario hamlets have decided to put on airs, whether republican or not. Snider's Corners, in Halton county, is to be known hereafter merely as Snider, and Nelles' Corners as Nelles. It is somewhat thrilling to learn that the latter was named after "a general merchant named Nelles, who was murdered in his home about 1860." Another suggestion of local history is the name Pentacost, which is now, not Pentacost, as jealous neighbors often call it. George, a town, is named after a word being Indian for "the place of the white rolling sand."

Peculiar incidents have been the basis of many names. Kicking Horse Pass and River, in British Columbia, originated, the Geographic Board tells us, in this way: "Sir James Hector was killed in the chest by one of his horses near the present 'Wapiti Station.' On the other hand, the present writer was carefully shown by an old resident the natural bridge on the rocks of the far bank of the river which was said to resemble a horse in the act of kicking."

McKay Lake, on Vancouver Island, derived its name from E. B. McKay, surveyor-general of British Columbia, "the first to fish in it," while Norway Mountain, in Alberta, was climbed by Premier Norquay of Manitoba in 1887 or 1888.

Delusion Bay, on the coast of British Columbia, owes its unhappy title to this: "At high water it has the appearance of a fine cove, but at low water it is a mud flat."

Civilization has been carried to the wilderness in odd ways. Poohbah Lake, in the Rainy River District, is a reminder of the character in the comic opera, "Mikado," while "Gramophone Creek, in British Columbia, doubtless had the first "canoe music" of that district.

Many people of greater or less prominence will have their names live after them in out-of-the-way places. There is a Sifton Lake in Pontiac county, Quebec, named after Sir Clifford Sifton. Lord Carnarvon of the "Carnarvon" terms episode, settling the differences between the Dominion and British Columbia in the early seventies, is known of now, through a mountain in that province. Dennis is another mountain there, perpetuating Col. John Stoughton Dennis, an eminent surveyor, whose activities in Manitoba on instructions from the Dominion government had much to do with starting the rebellion in 1870. Grassett township and station in Algoma do honor to Toronto's Chief of Police, while Earl Grey mount and pass in British Columbia derive their name from the fact that the former governor-general went on a horseback trip through the pass in 1907.

Not so national in interest were the origin of Lake Loucks in Peterborough county, "after settler," and Edna, a point on Manitoulin Island, "after a child of Mrs. Purvis, Burnt Island."

After all the prettiest places in Canada are derived from the Indians, whether the Micmacs of the Maritime Provinces or the tribes of the mountains, and the Pacific coast. Esquimalt, in British Columbia, means "the river that bends back." Ombabika Bay in Lake Nipigon means "the gap between two promontories."

Okotoks, a mountain, and a town, south of Calgary, are Indian for "stone crossing," referring to a ford of Sheep River. Kiamat, a village, and an arm of Douglas Channel in British Columbia, is Indian for "the people of the snow," while Kaslo means "where blackberries grow."

Another source for the student comes in the fifteenth annual report of the Geographic Board of Canada, containing suggestions for two years affecting several thousands of names in various parts of the country. This board is concerned with names and spelling, and in its decisions gives some description for the object, and usually the origin, of the name. It is in the latter that most interest will be found, for it mirrors much of the history of the country for a century or more. ## Making Woman's Work Easier

Labor Saving Devices Just as Essential in the Home as in the Field

We men of the farm are too prone to look only to the lightening of our own work in the fields and about the barns and granaries. We provide ourselves with riding tools, and the fields, with manure spreaders, elevators for the barns, grain elevators for the granaries and systems of water works that put the water where we want it. In the house, where woman's work is done, too often there has not been a new thing added that makes work easier, since the household was established. Many times a desire to economize on the part of the woman herself, and good wife thinks her husband needs all his new tools and equipment. In order to make money, she does not feel that inasmuch as her part of the work is not exactly the producing end she should get along with what she has, or rather, what she has not.

Too often, many times too often, the man of the family does not realize the load of work and detail his wife and the mother of his children is carrying until it is too late to make amends for it. Many times the man sees nothing, until illness compels the calling of a doctor. The physician explains that an operation is necessary, that hard work year in and year out, perhaps all this time doing washing for a large family by the old-fashioned tub and washboard route and carrying the water with which to do it from a well several rods away, has so undermined the constitution that never again will the wife and mother be any better than an invalid. It is then that the husband, who realizes what has happened and the real cause of it, happens, but it is too late to help his companion and co-worker, the one who has helped him pile up his modest fortune, none of which can undo what overwork and drudgery has brought on, or bring back health that has been sacrificed in a spirit of false economy.

We of the farm have no distance to look for investments when the house is without water when there is no power save the weakening strength of mother to run the washboard, and when the kitchen is without the numerous improvements and step saving devices that may be so easily and cheaply provided. The man who buys a mortgage on a neighbor's land, with his wife working away her health carrying water in buckets from a well or struggling on with a washer that requires all her strength is not a rich man.

Now and then a woman will find out who does not seem to desire the modern things that so greatly lessen her labor. Perhaps her husband will mention getting an engine to run the washer or wishes to pipe the water into the house and buy other things that will make kitchen work easier, but the wife, still putting economy above health, says, "no," arguing that since she has always got along without those things she can always get along. So, sometimes, it is not the man's objection or refusal that a woman's work is not made easier, but it is a foolish old-fashioned whim of the woman herself that prevents. Here at this point is where the man should overcome any objection, and should see that his wife has her labor lightened with the modern things that lighten it, the same as he provides improved machinery for making his work easier.

**Wireless Chain in America**  
A plan to link the Americas from Alaska to Cape Horn in a system of wireless communication that will enable commercial houses ashore to talk daily to their clients in another continent and with the masters of commercial vessels engaged in trade between the North and South American continents, has been formed by the Marconi Telegraph Company of America.

Work on a chain of stations to give the United States direct communication with Argentina will be started early in 1918, and as soon as concessions are obtained in other South American countries, the company and its subsidiaries will take up plans for a series of stations on the continent.

**Daylight Saving Economies**

Daylight saving seems likely to receive more attention next summer than ever before. One strong reason for the April to September general adoption of the plan is that it will save in electric light and gas plants alone more than a million tons of coal. It is by no means improbable that the Canadian and American governments will both decree summer daylight saving as a measure of national economy, as have Great Britain, France, Germany and other European nations.—St. John Globe.

First Co-ed—I've lost a diminutive, argentine, truncated cone, convex on its summit and semi-perforated with asymmetrical indentations. Second Co-ed—Here's your thimble.—Medicine Man.

## War and Food

No. 4

### WHEAT

Canada is pre-eminently a land of wheat. Her fields of waving grain have become symbolic in all parts of the world. She is a wheat exporting country.

Between now and next harvest it will be necessary to deliver on the north side of the Atlantic from 450,000,000 to 500,000,000 bushels of wheat. Millions of men have been taken from wheat raising and sent into the trenches. Fields have been laid waste by the enemy. Ships bearing precious freights of food stuffs have been sunk by submarines. Crops in other countries have fallen short. Europe is threatened gravely threatened, by famine.

The responsibility, therefore, rests upon the North American continent to make good the deficiency of Europe. The United States has not a bushel of wheat to spare over and above her normal consumption. Canada has only from 100,000,000 to 110,000,000 bushels of exportable wheat.

The people of the United States and Canada are asked to liberate one-fifth of their normal supply of wheat or flour to make up part of Europe's deficiency. This means that consumption must be decreased; that less white bread must be eaten; that substitutes must be adopted. In the simplest analysis it means that three slices of white bread should take the place of four in everyone's diet.

Wheat is undoubtedly the best bread cereal, but other flour can readily be mixed with wheat flour to make bread. People in Canada can scarcely realize what the shortage of wheat means to Europe. The people of France are almost absolutely dependent upon wheat bread. Bread constitutes 52 per cent. of their total food supply. In no better way can Canadian realize what their patriotic sisters in Europe than by being sparing in their use of white flour.

He seated himself in the grill and made a protracted study of the menu. "Waiter," he said at length, "I have only two dollars with me. What would you recommend?" The waiter gently removed the card from the hand of the unsophisticated stranger, as he replied: "Another restaurant."—The Argonaut.

# APPLEFORD'S SANI-WRAPPERS

## Use Sani-Wrappers It Pays

Your customers will appreciate your care and cleanliness as your parcel their purchases of meats, butter, bread and vegetables in Appleford's Sani-Wrappers.

Particular trade goes to the store that is careful of the details of cleanliness, and appearance.

Ask your Jobber for Appleford's Sani-Wrappers, or write us direct for samples and prices.

## Jupiter of Enormous Size

Great Planet Is Larger Than All the Others Combined

Jupiter is far the largest of the planets. (Diameter 84,000 miles). It is larger, indeed, than all the others combined. How appropriate that this mighty sphere should have such a name! But it is not strange that Venus, which looks so much brighter was not in prehistoric days. Jupiter? Probably Venus was named first because of its greater brilliancy and in virtue of its conspicuous beauty received the name of the charming goddess, after which the only name worthy of the great planet we are now considering was that of the father of the gods.

Jupiter resembles the sun and Saturn in the fact that it is not solid at its surface. Its equatorial regions, like theirs, float somewhat freely over the deeper layers of its body.

Seasons are absent from Jupiter's year, which is equal to about twelve of ours. The Jovian day is less than ten hours, or about twenty minutes less than the day of Saturn. Bodies weigh about two and a half times as much as on the earth and 20 per cent. more at the poles than at the equator.

Jupiter and the poles of Saturn are the only places in the solar system, away from the sun itself where bodies weigh heavier than on earth.

There are 10,475 days in the Jovian year. A point at the earth's equator moves a little more than 1,000 miles per hour, a similar point on Jupiter's equator moves about 26,000 miles per hour.

Jupiter has nine moons. The four largest were discovered by Galileo, being among the very first objects revealed by the aid of the telescope. The latest Jovian moon was discovered in 1914 by means of the photograph, the object being too distant and too small to be seen with the largest telescope.

## To Buy Out the Publican

British Still Muddling Along on the Drink Question

The commission, presided over by Lord Sumner, which was appointed to consider what should be the terms of state purchase of the liquor trade were adopted in England and Wales, have reported. The commission were expressly precluded by their terms of reference from reporting on policy, and therefore do not make any recommendation for or against state purchase.

Their business was to consider how the control of the trade could be continued after the war, and the terms of purchase if the government decided on it.

It is understood that they find that not less than £350,000,000 would be required to purchase the brewery and public house interests in England and Wales. This is presumed to include the supply of malt got by the brewers from the maltsters. It does not include spirits, but although there are very few distilleries in England there is something like 150,000,000 gallons of whiskey in this country to deal with, which would be a complicated matter.

It is of interest to note that the extremists on the side of the liquor trade have in the past asked for purchase price up to a figure between 500 and 600 millions.—London, England, Daily News.

It is of interest to note that the extremists on the side of the liquor trade have in the past asked for purchase price up to a figure between 500 and 600 millions.—London, England, Daily News.

Not Much of a Tale

"It won't be much of a story, will it?"

"When our grandchildren ask us what we did in the great war, and we have to tell them that once a week we went without meat—Detroit Free Press.

"Filkins has, I see, been ostracized by the modern New York Bohemian set."

"What did he do?"

"Why, he went to an evening function, they gave without evening clothes."—Judge.

tres. Apply to  
PRIVATE H. MERRY,  
Room 37,  
Military Hospital, Frank.

The big winter carnival at Banff  
opens next week.

# UNION BANK OF CANADA

## A Savings Account for Your Wife

and a regular allowance,  
generous enough to

allow her a margin for saving, would encourage  
thrift, and give her a feeling of partnership and a  
keener interest in the financial progress of the family.

Blairmore Branch, Bellevue Branch, J. M. Windsor, Manager,  
Hillcrest, sub. to Bellevue.

A. J. and Mrs. McGuire, of Spoka-  
ne, are in town this week.

Medicine Hat city council has  
placed the civic poll tax for this  
year at \$5. The tax is to be col-  
lected from employers, who will  
collect it from employees.

The Bureau of Licences of the  
Food Controller's office has issued  
over 45 licences for breakfast food,  
690 licences for fruit and vegetable  
dealers and 750 licences to whole-  
sale fish dealers. Applications for  
licences have been received from  
nearly 60 per cent of the wholesale  
dealers in fruit and vegetables.

Grant Hall, general manager of  
western C.P.R. lines, and Sir Au-  
gust Nanton, representing the Do-  
minion War Defence board, spent  
all of Monday in conference with  
the miners of District 18 at Cal-  
gary, discussing the question of  
coal production. No official state-  
ment was given out and the opera-  
tors were very reticent in giving  
information. It is understood that  
the meeting was respecting the  
supply of coal to western Canada  
and western United States. At  
present the United States is fur-  
nishing coal to Ontario and is also  
supplying Manitoba and even fur-  
ther west with coal. Western op-  
erators believe that by speeding up  
they could furnish all the Canadian  
west with coal as far east as the  
head of the lakes. The supplying  
of coal to some of the western  
states, such as North and South  
Dakota, was also under considera-  
tion.

Dr. Bland, one of Canada's gifted  
orators, will preach in Lethbridge  
on Sunday morning and evening  
next.

Fifty-six hostile airplanes have  
been downed on the Italian front  
since January the 26th, says an  
official statement.

Canada uses more wheat per  
capita than any other country in  
the world. Human consumption  
of wheat in the Dominion should  
not exceed 5.4 bushels per capita  
per annum. Canada has been us-  
ing wheat at the rate of about 9  
bushels per capita each year.

Before the war England received  
approximately 1,400,000 long tons  
of sugar per annum from Germany  
and neighboring sources. France  
produced about 750,000 long tons  
of beet sugar and exported 50,000  
tons. The French production in  
1917 fell to 210,000 long tons. Be-  
fore the war Italy produced about  
210,000 long tons and imported  
almost none.

It is estimated that Canada's  
wheat crop last year, including the  
yield in the West and Ontario  
wheat, was about 215,000,000  
bushels. A careful survey has  
shown that, on Dec. 1st, in addi-  
tion to seed requirements, the  
amount of Canadian wheat on the  
side of the Atlantic was about  
112,500,000 bushels, of which 8-  
500,000 bushels were in the United  
States enroute to the Allies. This  
estimate included a considerable  
amount of wheat still in the farm-  
ers' hands.

The editor of a western paper  
speaks thusly to his delinquent  
subscribers—The wind bloweth  
the farmer south, the subscriber  
north, and the Lord knoweth  
we are in need of our dues. "So  
come a dunnin' ere we go a dun-  
nin' we're not dunnin' this thing  
of dunnin' gives us the blues.

Services at Central Union church  
on Sunday last were conducted by  
Mrs. Black in the morning and Mr.  
Black in the evening. The even-  
ing service was dedicated to the  
memory of the late Private John  
Huston, who enlisted from Blair-  
more, having resigned his position  
as cashier at the local branch of  
the Union Bank of Canada to do  
his bit, and who made the supreme  
sacrifice on the field of Flanders  
last fall. The service on Sunday  
night was largely attended.

A pledge card campaign is being  
vigorously prosecuted in Montreal  
just now. The Women's Food  
Economy Committee, the Imperial  
Daughters of the Empire, House-  
wives' League, Local Council of  
Women, Women's Club of Montreal  
and the Canadian Women's Club  
united to form one organiza-  
tion under the direction of Mrs. Hunt-  
ley Drummond and Mrs. V. V.  
Henderson. One thousand signed  
cards were returned the first day  
and over 15,000 before the end of  
the first fortnight. The pledge  
card canvass is being followed up  
by ward to ward demonstrations in  
cooking war meals and substitute  
dishes.

## OF LOCAL AND GENERAL INTEREST

Inspector Hodgson, of the public  
schools, was in The Pass last  
week.

A dance in aid of the Red Cross  
will be given at Hillcrest on Mon-  
day night next.

W. Shaw, mine inspector, came  
down from Calgary the early part  
of the week and returns north to-  
night.

COLEMAN TOWN BAND—  
Music for Dancing. Any number  
of players supplied. Apply to G.  
Buddington, secretary.

Some say the earthquake felt  
recently in the vicinity of Banff  
was simply caused from the  
shivers of a big bear after taking  
his morning bath.

The use of cream has been dis-  
continued for the period of the war  
at Rideau Hall, the residence of  
His Excellencies the Duke and  
Duchess of Devonshire.

The campaign initiated by the  
Food Controller to increase con-  
sumption of frozen fish as a sub-  
stitute for meat required overseas is  
meeting with much success.

R. L. Norman has quit the edi-  
torial chair of the Coleman Bulle-  
tin and goes to Lethbridge to take  
up a position with the Imperial  
Life Assurance Company.

That the Doukhobors of Canada  
are considering the removal of all  
members of their several communi-  
ties in Canada back to their native  
country in Russia, is the statement  
of Peter Veregin, leader of the  
Doukhobors in Canada.

In order to raise money to sat-  
isfy bank claims for money ad-  
vanced, the city of Medicine Hat  
will offer for sale by auction a  
large number of building lots  
against which taxes have piled up  
during the past four years to the  
amount of \$600,000.

It is said that over in Italy the  
hail menace is controlled by the  
firing of cannon stationed at dif-  
ferent parts of the country. The idea  
is to fire the shells or explosives  
into clouds that look like hail  
clouds and so compel the rain to  
fall before an icy wind strikes it.

The editor of a western paper  
speaks thusly to his delinquent  
subscribers—The wind bloweth  
the farmer south, the subscriber

dishes.

Some people's idea of a broad  
mind is one that has fallen abroad.

If there were a patent medicine  
that would cure a mean disposi-  
tion, we know some men who  
ought to take about a million bot-  
tles.

A Chinaman named Long Way,  
aged thirty-six years, died at Leth-  
bridge this week, and according  
to the Lethbridge Herald the  
funeral cortege took the Long Way  
to the cemetery.

The war has been hard on news-  
papers. In the past year eight  
hundred have gone out of business  
in the United States and eighty-  
four in Canada. The Enterprise is  
still listed among the survivors.

"Me name is Meghinness, an-  
nounced Pat, "and O'm ready to  
fight as long as there's breath left  
in me body."

"Yies," hieased Mike, "that's  
what you Meghinness fight  
with."—Life.

The funeral of the late Samuel  
Parker took place on Sunday last  
from the Bellevue Methodist  
church, where a service was con-  
ducted by the Rev. H. Peters. In-  
terment took place at the Hillcrest  
cemetery.

The Canadian Methodist Church  
will shortly establish a thirty-  
million-dollar church fire insur-  
ance company, to carry the risks  
on all property held in Canada,  
Newfoundland, Japan and China  
under the Canadian general con-  
cession.

R. L. Norman, of the Coleman  
Bulletin, paid The Enterprise a  
friendly visit on Thursday. Owing  
to Mr. Norman's inability to  
secure a successor at Coleman, we  
have undertaken to furnish his  
subscribers in Coleman with The  
Enterprise until such time as the  
publication of the Coleman paper  
is resumed. In the meantime, we  
are very desirous of securing good  
live correspondence from Coleman  
and will pay a good price for same.

A resolution has been passed by  
the miners' executive to bring be-  
fore the next convention the ques-  
tion of publishing a miners' or  
labor journal so that the public  
will get the true facts of the mine  
troubles. It is probable that the  
paper published before the war by  
the United Miners will be revived  
and published, the former journal  
having been a successful venture  
until its close at the outbreak of  
the war.

In order that intending settlers  
in Western Canada may be prop-  
erly informed as to the system of  
government which prevails in this  
country, the Canadian Pacific Rail-  
way has just issued through its  
Department of Colonization and  
Development a pamphlet entitled  
"Canada's System of Government,"  
which explains in very simple  
language the general principles of  
Municipal, Provincial and Domini-  
on Government in this country. A  
copy of the pamphlet may be had  
without charge by addressing  
Robert J. C. Stead, Department of  
Colonization and Development,  
Canadian Pacific Railway, Cal-  
gary.

Forms for the Dominion Income  
tax returns will shortly be avail-  
able. Chuburn Allen of Calgary,  
who until recently has been sec-  
retary of the provincial patriots  
fund branch, has been appointed  
inspector of taxation for the pro-  
vince and will have charge of the  
work of securing the returns. He  
states that forms will be available  
in a few days. The appointment of  
an assistant inspector at Leth-  
bridge is expected to be announced  
within a few days.

Vancouver has \$5,000,000 due in  
the way of tax arrears.

Rev. J. Fulton returned from  
Edmonton on Wednesday.

The big miners' strike at Drum-  
heller is still unsettled.

R. L. Norman and family leave  
Coleman next week to take up resi-  
dence in Lethbridge.

The allies claim to be fully pre-  
pared for the big German offensive  
proposed to start during March.

Two dry docks, valued at \$1-  
000,000, and a dozen steamers have  
been destroyed by ice in the Ohio  
river.

The name of W. H. Bradford, of  
Coleman, is given in this week's  
casualty lists as being seriously  
ill.

Mrs. Walter Fisher was down  
from Calgary to spend a few days  
with her mother, Mrs. Baird, at  
Frank.

Little Ethel Allen, of Lethbridge,  
aged eleven years, has completed  
her one hundredth pair of socks  
for the soldiers.

George Hoadley, member for  
Okotoks, has been named leader of  
the Opposition for the present ses-  
sion.

Among a new list of publications  
in the United States for bidden cir-  
culation in Canada is the Seattle  
Daily Call.

The government has purchased  
one thousand new tractors, which  
will be supplied to Canadian farm-  
ers at cost.

It is now believed that at least  
260 American troops lost their  
lives in the sinking of the troopship  
Tuscania last week.

According to advice received by  
Mr. and Mrs. James Patterson  
their son, Sapper George Patterson,  
is suffering from shell gas.

Twelve hundred out of 6,448  
men who left the Dominion of  
Newfoundland have died on the  
battlefield. Canadian casualties  
have not exceeded ten per cent.

Russia has declared the state of  
war to be at an end and has or-  
dered the demobilization of Rus-  
sian forces on all fronts, according  
to a dispatch from Brast-Litovsk  
dated Sunday last.

The Pastor Russell periodicals  
have been banned by the Domini-  
on censor, and a fine of not more  
than \$5,000 or six months in jail  
will be imposed on parties in whose  
possession they are found.

The following shipment was  
made to Calgary on February the  
14th, by the Blairmore Red Cross  
branch: 58 blanket binders, 6 day  
shirts, 2 surgical shirts, 104 towels,  
42 wash cloths, 97-TT bandages,  
9 pairs socks, 1 scarf, 78 slings, 1  
mummy-tail bandage, 80 handker-  
chiefs.

Norman Harvey, secretary of  
the railway department, who has  
been acting as secretary to the pre-  
mier, has been named acting de-  
puty minister of telephones and  
railways in succession to W. Har-  
mer, who has been appointed sen-  
ior France at present has 2-  
700,000 men in the field and is  
making 30,000 shells a day.

### Blind Children's Fund

In addition to the amounts al-  
ready acknowledged, amounting to  
\$16.25, the following contributions  
have been received during the week  
towards the Halifax Blind Chil-  
dren's Endowment Fund:

Mrs. C. Stewart	\$1.00
Ivy and George Shoad	.50
Miss A. F. Roofs	4.00
Miss Doris Stewart	1.00

Total to date \$22.75

## By-Law No. 64

Town of Blairmore  
Province of Alberta

WHEREAS the Town has  
obtained ownership and con-  
trol of the transmission lines of  
The Rocky Mountains Cement  
Company, Limited, supplying  
current to the Town and citi-  
zens thereof for lighting pur-  
poses.

AND WHEREAS the Town  
is now operating said lines and  
supplying electric current  
thereover to its citizens for  
lighting and other legitimate  
purposes.

AND WHEREAS it is ex-  
pedient to provide for the man-  
agement and control of the dis-  
tribution of the said electric  
current and to enact legislation  
regulating and governing such  
distribution in dwelling houses  
and other buildings under pri-  
vate control.

IT IS THEREFORE ENAC-  
TED by the Mayor and Council  
of the Municipality of the Town  
of Blairmore as follows:

1. Electric current shall be  
sold by the Town to its citizens  
for lighting and other legiti-  
mate purposes over said trans-  
mission lines at a price per kil-  
owatt hour to be fixed and de-  
termined from time to time by  
the Council of the Municipality,  
or by such Committee, Com-  
missioner or Commissioners as  
may be at any time delegated  
by the Council for the purpose.

2. No electric current shall  
be supplied by the Town except  
over a Meter properly installed  
by the purchaser of such cur-  
rent and duly approved by a  
competent inspector acknowl-  
edged to be such by the Coun-  
cil or by such Committee, Com-  
missioner or Commissioners as  
aforesaid.

3. No person or persons pur-  
chasing electric current from  
the Town shall, without ex-  
press permission from the  
Council, or from such Commit-  
tee, Commissioner or Commis-  
sioners, as aforesaid, after the  
enactment of this By-Law,  
make any alteration, connec-  
tion or extension to the wiring  
installation at present in his  
dwelling or other building un-  
der his control, whereby such  
current is intended to be or  
may be diverted, nor, without  
such permission as aforesaid,  
make or cause to be made any  
new installation of wiring for  
lighting or other purposes other  
than that now existing.  
Provided always that such per-  
mission may be given in writ-  
ing by the Mayor or the Chair-  
man of any Committee or  
Board of Commissioners ap-  
pointed as aforesaid, or by any  
inspector appointed for the  
purpose; but before any such  
permission is granted particu-  
lars in writing of such new in-  
stallation, alteration, connec-  
tion or extension shall be sub-  
mitted by the applicant there-  
for. In general, but not in any  
manner limiting the purport of  
the foregoing, no person shall  
alter or interfere with any ex-  
isting electric lines or wires, in-  
cluding all present adjustments  
thereof or not, over which the  
Town for the time being sup-  
plies electric current, without  
submitting such particulars in  
writing and obtaining such  
permission as aforesaid.

4. Any person committing a  
breach of this By-Law shall on  
summary conviction be liable  
to a fine not exceeding Fifty  
Dollars (\$50) and costs, pay-  
ment of which shall be enforc-  
ed as provided by law, and, in  
the discretion of the Council,  
such person, after conviction,  
may be deprived of electric cur-  
rent for such time as the Coun-  
cil may direct.

ENACTED this 14th day of  
February 1918

W. A. BEERE, Mayor.  
K. WRIGHT, Sec'y. Town.

## The Weather

WEATHER conditions are  
beyond human control,  
but they are not beyond human  
prediction. Every community  
has its weather prophet, nor is  
he without honor in his own land. His, however,  
is a limited viewpoint. Seldom can he predict  
far in advance.

## Foster's Weather Forecasts

published exclusively by THE HERALD afford  
a summary of weather probabilities for weeks  
ahead. Many farmers owe their crop success  
to careful study and observance of these marvelous  
forecasts.
